"Po you believe in the Elixir of Life?" I asked of a prominent New York physician, recently. The doctor thought a momens, carefully, and said; "Certainly I do, but not in the way in which Doctors Brown-Sequard or Hammond have been describing it. All that has been said in the press of the land for the past months proves that something is needed to assist and austain the vitals and often failing forces of life, but Nature never intended the human body for injections, and they are stways injurious because unnatural."

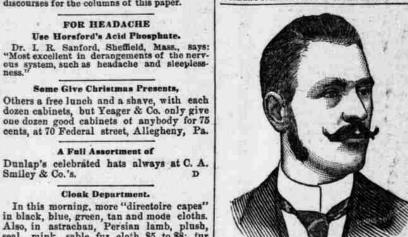

"But is it not often done, Doctor?"

"I am sorry to say it is. Morphine injections are far too common, and they are the great cause of that fearful living death known as the oplum habit. There is but one way to properly reach or sustain the vitality and life, and that is through the stomach, and there is no discovery of modern

grandest exposition ever seen under the sun! Have Bibles enough bound. Have churches enough established. Have scientific halls sustain the vitality and life, and that is through the stomach, and there is no discovery of modern times which, if rightly used, does this so thoroughly, keeps back disease and prolongs life, as pure whiskey. Mind you, I say pure whiskey, for all else is injurious. The effects of a pure article like Duffy's Pure Malt Whiskey are practically those of an 'elixir of life.' It tones up and strengthens the system, without injurious reaction or without the formation of any habit. It tends to rance life in the axed and restore it to enough set up. Have revivals of religion enough in full blast. I believe you will. "Ho-sanna to the Son of David! Blessed is he that cometh in the name of the Lord!" tends to renew life in the aged and restore it to those in middle life. For women especially, who are weak, languid or suffering as most women The golden spired Apocalypse!

Among the places at which Dr. Talmage will probably preach during his extended trip are Rome, Jerusalem, Nazareth, Bethlehem, Bethleany, Samaria, Joppa, Athens and Corinth, and Mr. Louis Klopsch, the reverend gentleman's press agent, has perfected such arrangements as will enable him to promptly and regularly report this exceedingly interesting series of discourses for the columns of this paper. are, it is almost invaluable. All physicians lear hese things from their practice, and cannot but be believers in a true and sensible 'elixir of life' ike this pure article of which I have been speak-

ing."
The Doctor himself seemed to be a good example of the truths he advanced, for his strong fram and clear eye showed him to be in perfect health and I left him much impressed by the clearness truth and common sense of his statements.

DR. SHAFER. DR. SHAFER.

The success that is attending the physicians of the Polypathic Institute in the treatment of all forms of kidney and urinary diseases is truly wonderful. Among the many patients who have been cured and have given testimonials for publication, are Mr. H. Robertson, kidney disease and dropsy; Mr. A. Schermerhorn, who had severe hemorrhages and lost three quarts of blood at one time; Mr. J. V. Smith, whose disease caused him to be in constant fear of becoming insaner a lady who had a tumor, measured five feet around her abdomen, and had been unable to lie down for over three months, received an operation and over 30 quarts (60 pounds) of dropsical fluid was taken from her; Mr. Honry Walter, rheumatism of many years standing. Ever since the cool weather has set in we have been crowdedcrowded in our Clothing Department, crowded in our Cloak Department, crowded in our Hat and Furnishing Goods Department, crowded in our Shoe Department, crowded in our Merchant Tailoring Department-crowded all over our store with people, intelligent people, and everyone of 'em buying Fall and Winter Goods.

Verily, thoroughly reliable and stylish goods, when coupled with low prices, never fail to draw crowds of intelligent buyers.

It has been a rather common remark of late that the public didn't respond to newspaper announcements these days as they did some years ago. Well, they do, reader, when the advertisement is above a reputable firm's name. The truth of the matter is, the schoolmaster is abroad in the land, and the people are growing more and more intelligent day by day, are less gullible than they used to be; consequently the crowds of buyers are found at our house, because the goods at present prices demonstrate beyond a doubt that we are giving the people big value for

and the people who lift up and put down our American rulers!

To them I make this timely and solemn and Christian appeal. Do you not think people die fast enough without this wholesome butchery of war? Do you not think that we can trust to pneumoniae and consumptions and apoplexies and palsies and reliow fevers and Asiatic choleras the work of killing them fast enough? Do you not think that the greedy, wide open jaws of the grave ought to be satisfied if filled by natural causes with hundreds of thousands of corpses a year?

WAR'S LAST GLORY GONE. Do you not think we can do something better with men than to dash their life out against casements or blow them into fragments by torpedoes or send them out into the world where they need all their faculties, footless, armless, eyeless? Do you not think that women might be appointed to an easier place than the edge of a grave trench to wring their pale hands and weep out their eyesight in widowhood and childlessness? Why, the last glory has gone

weep out their eyesignt in whowhold am childlessness? Why, the last glory has gone out of war.

There was a time when it demanded that quality which we all admire—namely, courage—for a man had to stand at the hilt of his sword when the point pierced the foe, and while he was slaying another the other might slay him; or it was bayonet charge. But now it is cool and deliberate murder, and clear out at sea a bombshell can be hurled miles away into a city, or while thousands of private soldiers, who have no interest in the contest, for they were conscripted, are losing their lives, their general may sit smoking one of the best Havana cigars after a dinner of quali on toast, it may be well enough for graduating students of colleges on commencement day to orate about the poetry of war to the men of the Federal or Confederate armies who were at the front, or to some of us who, as members of the Christian commission, saw the ghastly hospitals at Antietam and Hagerstown. All you may worship the Lord of Hosts, I worship the "God of Peace, who brought again from the dead our Lord Jesus Christ, that great Shepherd of the sheep."

war is an accursed monster and it was born in the lowest exvern of perdition, and I pray that it may speedily descend to the place from which it arose, its last sword and shield and musker ratkling on the bottom of the red hot marl of hell. Let there be called A PEACE CONVENTION for 1892, with delegates sent by all the decent governments of Christendom, and while they are in session, if you should some night go out

and look into the sky above the Exposition buildings, you may find that the old gallery of and look into the sky above the Exposition buildings, you may find that the old gallery of crystal, that was taken down after the Bethlehem anthem of 18 centuries ago was sung out, is rebuilt again in the clouds and the same angelic singers are returned with the same librettos of light to chant "Glory to God in the highest, and on earth peace, good will to men." Again, I suggest in regard to the World's Fair that, while appropriate places are prepared for all foreign exhibits, we make no room for the importation of foreign vioca. America has enough of its own, and we need no new installments of that kind. A world's fair will bring all kinds of people, good and bad. The good we must prepare to welcome, the bad we must prepare to shun. The attempt will again be made in 1892, as in 1876, to break up our American Sabbaths. That attempt was made at the Philadelphia Centennial, but was defeated. The American Sabbath is the best kept Sabbath on earth. We do not want it broken down, and substituted in the place thereof the Brussels Sabbath, the Vienna Sabbath, the St. Petersburg Sabbath or any of the foreign Sabbaths, which are no Sabbaths at all. I think the Lord is more than generous in asking only 52 days out of the 365 for his service. You let the Sabbath go and with it will go your Bible, and after that your liberties, and your children or your grandchildren will be here in America under a despotism as bad as in those lands where they turn the Lord's Day into wassail and frolic.

DOWN UPON BLUE BLOODED VICE. Among those who come there will be, as at other expositions, lordly people who will bring their vices with them. Among the dukes and duchesses and princes and princesses of other lands are some of the best men and women of all the earth. Remember Earle of Kintore, Lord Cairns and Lord Shaftsbury. But there is a snobbery and flunkeyism in American society, that runs after a grandee, a duke, a lord or a prince, though he may be a walking lord or a prince, though he may be a walking lazaretto and his breath a plague. It makes the fortune of some of our queens of society to dance one cotillion with one of these princely lepers. Some people cannot get their hat off quick enough when they see such a foreign lord approaching, and they do not care for the mire into which they drop their knees as they bow to worship. Let no splendor of pedigree or any pomp and parapherasila of circumstance make him attractive. There is only one set of Ten Commandments that I ever heard of, and no class of men or women in all the world are excused from obedience to those laws written by finger of lightning on the granite surface of Mount Sinal. Surely we have enough American vices without making any drafts upon European vice for 1892.

By this sermon I would have the nation made aware of its opportunity and get ready to improve it, and of some perils and get ready to combat them. I rejoice to believe that the advantages will overtop everything in that world's fair. What an introduction to each other of communities, of states, of republics, of empires, of zones, of hemispheres! What doors of information will be swung wide open for the boys and girls now on the threshold! ADVANTAGES BEYOND CONCEPTION. What national and international education What crowning of Industry with sheaves of grain, and what imperial robing of her with embroidered fabrics! What scientific apparatus! What telescopes for the infinitude above and microscopes for the infinitude be-

represented at our World's Fair in 1892, and eath and instruments to put nature to the orture until she tells her last secret! What a display of the munificence of the God who has grown enough wheat to make a loaf of good bread large enough for the human race, and enough cotton to stocking every foot, and enough timber to shelter every head, making it manifest that it is not God's fault, but LEAVENING POWER Of the various Baking Powders illus-

the slow process of having to send the gospel to other lands by our own American missionaries, who have difficult toil in acquir

to have able and influential foreigners converted during their visit to America and then have them return to their native lands with the glorious tidings! Oh, for an over-whelming work of grace for the year 1892, the calling at that time and place of a great peace congress for all nations. The convention of representatives from the Govern-ments of North and South America, now at

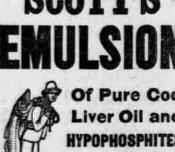

tion would come to it, mighty men of England and Germany and France and Russia and all the other great nationalities, Bismarck who worships the Lord of Hosts, and Gladstone who worships the God of Peace, and Boulanger who worships himself. The fact is that the
